GIUNZIONI STIC

REGGIPIANO A CODA DI RONDINE

Il reggipiano a scomparsa autobloccante, STIC è in grado di garantire la migliore resistenza tanto alla trazione laterale quanto al peso superficiale.

Composto da un sistema cd a coda di rondine, si presta soprattutto per armadiature e librerie anche con ribalte: non necessita di fori a vista ed è ottimo come elemento per la giunzione strutturale di fianco e ripiano.

Il montaggio e lo smontaggio sono semplici e rapidi.
